In a Zodiac-based world, finding a mate is easy. Falling in love is the hard part. Astrology influences almost everything, from career choice to where people live. Even romantic matches are based solely on astrological compatibility and determined by the infallible Council of Venus. Animal psychic, Tierra, has every reason to trust the Council save one. Her match with fellow Virgo, Evander, works better on paper than in person. But she stubbornly hangs on, believing their relationship will grow and develop, all the while trying to rationalize her feelings to Lachlan. Veterinarian and Reiki master, Lachlan, hides a secret which has kept him single for more than two years. This Pisces dreams of a happily ever after with Tierra but believes it's impossible for him. Tierra and Lachlan must confront their doubts, differences, and society's belief in the Council. Will they defy the odds and choose each other? Does astrological certainty eclipse the chance to fall in love?.
