Trafford Publishing, United States, 2013. Paperback. Book Condition: New. 279 x 210 mm. Language: English Brand New Book ***** Print on Demand *****. This handbook manual is a simple general restatement of the law of trusts. In it, the author has in straightforward language highlighted the importance of trusts in modern society and has explicitly compared and contrasted them with wills. What is also contained is a look at other concepts and principles which have an impact on the complex law of trust. The essential elements of a trust are also explained. Categorization of trusts into constructive, discretionary, protective, fully secret, half secret, resulting and charitable trusts is also concisely dealt with. Mutual Wills are dealt with together with secret Appointment, retirement, removal of trustees, powers, of trustees and investment duties of trustees are explained. The importance of trust corporations in rendering executor and trustee services is also dealt with. Trusts in customary law are in an outline form dealt with in the concluding chapter. All this is dealt with in simple straightforward language in the handbook manual and is therefore useful in a study of trusts. . I therefore recommend this handbook as useful for law students and paralegal officers and in particular all those engaged in the provision of trustee services.
