## PROFIT: THE STUPID VIEW OF PRESIDENT DONALD TRUMP

[DOWNLOAD](#)

Axial Publishing. Paperback. Condition: New. 160 pages. Dimensions: 8.5in. x 5.5in. x 0.4in. The book deals with a massive needed shift in economic theory and practice. This need is generally recognized but very few clues to it are present in the current culture of politics or economics, financial analyses or public discourse. Profit is recognized by all as being at the heart of the current economic problem. Think of election or government promises regarding minimum wages or women's wages, or general increasing of purchasing power. The problem of profit and its distribution, indeed, lurked behind most of the bitter rhetoric prior to the nominations and in the subsequent debates between Hillary Clinton and Donald Trump. President Trump has hopes about economic growth, but on the issue of profit he shares a common muddle. A quiet but serious pause over a non-stupid view of profit exposes the silliness, the abusiveness, the immorality. The dominant content of the book is a pedagogy of the new view of profit, which depends on the reluctant admission by the community of economists that there is a deep flaw in present efforts at economic analysis. That flaw has been a topic in the writings of some of the great economists of the twentieth century. But the leading searcher of the century was Joseph Schumpeter, who pushed for a new view in two highly respected books. He writes of the crisis in terms of crossing the Rubicon to arrive at dynamic analysis, but he failed to develop refined scientific distinctions in the productive process. The Russian economist, Michael Kalecki came nearer such refinement, and the Cambridge economist Joan Robinson recognized this. What is the common muddle? What is the flaw? It is best to point simply to the newness of the view by a parallel with Newton's transformation...
